

PRODUCT: GRO-KOTE™ OVERLAY

CODES: COWG50 (White)

TYPE: TWO-COMPONENT CONCRETE/POLYMER MIX

PRODUCT DESCRIPTION: GRO-KOTE™ Overlay is a two-component product consisting of a concrete and sand matrix mixed with a polymer that dries to a uniform bond coat. It is a stamped concrete system that covers old or new existing concrete surfaces with a thin layer. GRO-KOTE™ Overlay, when stamped, duplicates the look and appearance of many natural stones, slate, or granite, as well as rock formations.

GRO-KOTE™ Overlay may be color sealed with GRO-LAC® All Purpose Acrylic Concrete Finish or stained with GRO-LAC® Acrylic Concrete Stain, achieving many different design effects.

USES: GRO-KOTE™ Overlay may be used on residential or commercial projects. It is ideal for hotel lobbies, sidewalks, pool decks, and patios, etc.
