

**PRODUCT:** GRO-KOTE™ DECK TEXTURE PREMIX

**CODES:** CPWG50 (White)  
CPSG50 (Sand)  
CPGG50 (Gray)  
CPRG50 (Red)

**TYPE:** TWO-COMPONENT CONCRETE/POLYMER MIX

**PRODUCT DESCRIPTION:** GRO-KOTE™ Deck Texture Premix is a two-component product consisting of a concrete and sand matrix mixed with a polymer that dries to a uniform bond coat. It is a system that covers existing concrete with many different texture designs forming a thin layer of concrete that may be color coated with GRO-LAC® All Purpose Acrylic Concrete Finish on a wide variety of decorative texture finishes.

GRO-KOTE™ Deck Texture Premix is very easy to use with stencils, allowing the creation of design patterns such as cobblestone, brick, runningbond, fanstone, flagstone, paver, and many others.

**USES:** GRO-KOTE™ Deck Texture Premix is ideal for patios, pool decks, sidewalks, and wall effects.
