

PRODUCT: GRO-KOTE™ JAWS PREMIX

CODES: PJAWS50 (White)
PSJAWS50 (Sand)

TYPE: ONE-COMPONENT CONCRETE/POLYMER MIX

PRODUCT DESCRIPTION: GRO-KOTE™ JAWS Premix is a one-component product consisting of a concrete and sand matrix mixed with a polymer that dries to a uniform bond coat. It is a system that covers existing concrete with many different texture designs forming a thin layer of concrete that may be color coated with GRO-LAC® All-Purpose Acrylic Concrete Finish on a wide variety of decorative texture finishes.

GRO-KOTE™ JAWS Premix is very easy to use with stencils, allowing the creation of design patterns such as cobblestone, brick, runningbond, fanstone, flagstone, paver, and many others.

USES: GRO-KOTE™ JAWS Premix is ideal for patios, pool decks, sidewalks, and wall effects.

MIXING INSTRUCTIONS: Add approximately 1 to 1 1/2 gallons of water per 50 pound bag of GRO-KOTE™ JAWS Premix.
