

**PRODUCT:** DECORATOR'S EGGSHELL FINISH

**CODE:** 103-8005

**TYPE:** VINYL ACRYLIC EMULSION

**PRODUCT DESCRIPTION:** Decorator's Eggshell Finish, a vinyl acrylic latex, is a high-hiding, extremely washable product formulated specifically for multiple uses as a wall paint and as a finish for wooden surfaces such as trim, doors, and cabinets. Decorator's Eggshell Finish dries to a uniform, eggshell finish in a matter of minutes, providing an exceptionally durable finish.

**SURFACE PREPARATION:** Surface must be clean, dry, and free of dust, grease, wax, scaling paint and any other foreign matter. Glossy surfaces must be dulled with fine grit sandpaper or a surface deglosser.

**APPLICATION AND CLEAN UP:** Decorator's Eggshell Finish may be brushed, rolled, or sprayed, and covers most surfaces in one good coat. Decorator's Eggshell Finish dries in a half hour, under normal conditions, to a beautiful eggshell finish. On new construction it is advisable to use a primer coat or Decorator's Eggshell Finish may be used as its own primer. Previously painted surfaces need no primer. Clean all tools with warm, soapy water then rinse well with clean water.
