

**PRODUCT:** TRANSSEAL® WINDOW PROTECTION CLEAR  
NO. 2 CWC (*Winter Formula*)

**CODE:** 989-4203

**TYPE:** AQUEOUS POLYMERIC COATING

**PRODUCT DESCRIPTION:** TRANSSEAL® Window Protection Clear No. 2 CWC was formulated with the protection of windows in the home construction industry as its goal. This product is an acrylic breathable film when dried. It protects new window glass from brick mortar, cement splashes, spray paint and other foreign matter that collects on new windows during the construction period. When construction is complete, the TRANSSEAL® Window Protection Clear No. 2 CWC may be peeled off, leaving the window ready to be cleaned with little effort.

**APPLICATION:** Use 1/4 in., 3/8 in., 1/2 in., or 3/4 in. nap paint roller, applying TRANSSEAL® Window Protection Clear No. 2 CWC only on the windowpane surface. Do not apply to the aluminum window area. This material may be applied in temperatures as low as 35 degrees F. Apply product 4 to 6 mils wet to achieve minimum mil thickness of 2 to 3 mils dry.

**REMOVAL:** Lift TRANSSEAL® Window Protection Clear No. 2 CWC edge with window-cleaning razor blade and peel off window. This product may also be wetted down with water and then peeled off. Discard waste in accordance with state and federal laws.
